Flexi™ 100 mm bass panel

Double-depth fabric wrapped panel for low-frequency control

Sizes	1200 × 600 mm
Thickness	100 mm
Acoustic	No published test data yet. We count it as a 50 mm panel in RT60 estimates, so our figures are conservative
Core	Glass fibre core, 100 mm
Face	Acoustically transparent polyester fabric, 39 standard colours
Edges	Bevel edged or straight edged
Weight	About 8 kg
Fixing	Wall, wall-to-ceiling corner, or flush to ceiling
Typical use	Home cinemas, music rooms, studios, living rooms with boomy bass
Colours	39 standard Flexi™ fabric colours; physical swatch card on request
Fire and emissions	Product-specific reports on request
Lead time	About 15 working days on our production schedule after the deposit, then delivery; about 4 to 6 weeks to installed
Warranty	1 year on materials and workmanship
Care	Vacuum gently or wipe lightly with a dry or slightly damp cloth. Do not soak or scrub
